D.M. Haverstick, PhD, DABCC

PEER REVIEWED PUBLICATIONS:

1. A.H. Gold and D.M. Haverstick: Control of glycogen synthase activity in developing rat liver. **Arch. Biochem. Biophys.** 184:441-452, 1977.

2. D.M. Haverstick, D. Dickemper, and A.H. Gold: Cycloheximide inhibition of insulin control of liver glycogen synthase b to a conversion. **Biochem. Biophys. Res. Commun.** 87:177-183, 1979.

3. A.H. Gold, D. Dickemper, and D.M. Haverstick: Insulin sensitivity of liver glycogen synthase b to a conversion. **Molec. Cell. Biochem.** 25:47-59, 1979.

4. D.M. Haverstick and A.H. Gold: Comparative catalytic properties of liver glycogen synthase from adult and newborn rats. **J. Biol. Chem.** 255:1351-1357, 1980.

5. D.M. Haverstick and A.H. Gold: Isolation of a polydisperse high molecular weight glycogen from rat liver. **Anal. Biochem.** 111:137-145, 1981.

6. D.M. Haverstick, V.M. Dixit, G.A. Grant, W.A. Frazier, and S.A. Santoro: Localization of the hemagglutinating activity of platelet thrombospondin to a 140,000 Dalton thermolytic fragment. **Biochemistry** 23:5597-5603, 1984.

7. D.M. Haverstick and A.H. Gold: Some properties of a liver protein that activates glycogen synthase b. **Biochem. Biophys. Res. Commun.** 126:170-177, 1985.

8. V.M. Dixit, D.M. Haverstick, K. O'Rourke, S.W. Hennessy, G.A. Grant, S.A. Santoro, and W.A. Frazier: A monoclonal antibody against human thrombospondin inhibits platelet aggregation. **Proc. Natl. Acad. Sci. USA** 82:3472-3476, 1985.

9. V.M. Dixit, D.M. Haverstick, K. O'Rourke, S.W. Hennessy, T.J. Broekelmann, J.A. McDonald, G.A. Grant, S.A. Santoro, and W.A. Frazier: Inhibition of platelet aggregation by a monoclonal antibody against human fibronectin. **Proc. Natl. Acad. Sci. USA** 82:3844-3848, 1985.

10. D.M. Haverstick, V.M. Dixit, G.A. Grant, W.A. Frazier, and S.A. Santoro: Characterization of the platelet agglutinating activity of thrombospondin. **Biochemistry** 24:3128-3134, 1985.

11. D.D. Roberts, D.M. Haverstick, V.M. Dixit, W.A. Frazier, S. A. Santoro, and V. Ginsburg: The platelet glycoprotein thrombospondin binds specifically to sulfated glycolipids. **J. Biol. Chem.** 260:9405-9411, 1985.

12. D.M. Haverstick, J. F. Cowan, K.M. Yamada, and S.A. Santoro: Inhibition of platelet adhesion to fibronectin, fibrinogen, and von Willebrand factor substrates by a synthetic tetrapeptide derived from the cell binding domain of fibronectin. **Blood** 66:946-952, 1985.

13. V.M. Dixit, D.M. Haverstick, K.M. O'Rourke, S.W. Hennessy, G.A. Grant, S.A. Santoro, and W.A Frazier: Effects of anti-thrombospondin monoclonal antibodies on the agglutination of erythrocytes and fixed, activated platelets by purified thrombospondin. **Biochemistry** 24:4270-4275, 1985.

14. D.M. Haverstick and M. Glaser: Visualization of Ca^{2+}-induced phospholipid domains. **Proc. Natl. Acad. Sci. USA** 84:4475-4479, 1987.

15. D.M. Haverstick and M. Glaser: Visualization of domain formation in the inner and outer leaflets of a phospholipid bilayer. **J. Cell Biol.** 106:1885-1892, 1988.

16. D.M. Haverstick and M. Glaser: The influence of proteins on the reorganization of phospholipid bilayers into large domains. **Biophys. J.** 55:677-682, 1989.

17. D.M. Haverstick, A. Rubenstein, and M.J. Bannon: Striatal tachykinin gene expression regulated by interaction of D-1 and D-2 dopamine receptors. **J. Pharmacol. Expt. Ther.** 248:858-862, 1989.

18. D.M. Haverstick and M.J. Bannon: Evidence for dual mechanisms involved in the methamphetamine-induced increases in striatal preprotachykinin mRNA. **J. Biol. Chem.** 264:13140-13144, 1989.

19. D.M. Haverstick, M. Jeziorski, and M.J. Bannon: Developmental profile of striatal preprotachykinin gene expression. **J. Neurochem.** 55:764-768, 1990.

20. J.G. Granneman, D.M. Haverstick, and A. Chaudry: Relationship between $G_{s\alpha}$ messenger ribonucleic acid splice variants and the molecular forms of $G_{s\alpha}$ protein in rat brown adipose tissue. **Endocrinology** 127:1596-1601, 1990.

21. K. Shibata, D.M. Haverstick, and M.J. Bannon: Tachykinin gene expression in rat limbic nuclei: modulation by dopamine antagonists. **J. Pharmacol. Expt. Ther.** 255:388-392, 1990.

22. D.M. Haverstick, V.H. Englehard, and L.S. Gray: Three intracellular signals for cytotoxic T lymphocyte-mediated killing: Independent roles for protein kinase C, Ca^{2+} influx and Ca^{2+} release from internal stores. **J. Immunol.** 146:3306-3313, 1991.

23. M.J. Bannon, M.S. Poosch, D.M. Haverstick, A. Mandal, I.C.-H. Xue, K. Shibata, and L.J. Dragovic: Preprotachykinin gene expression in the human basal ganglia: Characterization of mRNAs and pre-mRNAs produced by alternate RNA splicing. **Mol. Brain Res.** 12:225-231, 1992

24. D.M. Haverstick, H. Sakai, and L.S. Gray: Lymphocyte adhesion can be regulated by cytoskeleton-associated, PMA-induced capping of surface receptors. **Am. J. Physiol.** 262:C916-C926, 1992.

25. D.M. Haverstick and L.S. Gray: Lymphocyte adhesion mediated by leukocyte function-associated antigen-1: I. Long term augmentation by transient increases in intracellular cAMP. **J. Immunol.** 149:389-396, 1992.

26. D.M. Haverstick and L.S. Gray: Lymphocyte adhesion mediated by leukocyte function-associated antigen-1: II. Interaction between phorbol ester- and cAMP-sensitive pathways. **J. Immunol.** 149:397-402, 1992.

27. D.M. Haverstick and L.S. Gray: Increased intracellular Ca^{2+} induces Ca^{2+} influx via a Ca^{2+}/calmodulin pathway in human T lymphocytes. **Mol. Biol. Cell** 4:173-184, 1993.

28. J.J. Densmore, D.M. Haverstick, G. Szabo, and L.S. Gray: A voltage operable current is involved in activation-induced Ca^{2+} entry in human lymphocytes while I_{CRAC} has no apparent role. **Am. J. Physiol.** 271:C1494-C1503, 1996.

29. D.M. Haverstick, M.E. Dicus, M.S. Resnick, L.S. Gray and J.J. Sando: A role for protein kinase CβI in regulation of Ca^{2+} entry in Jurkat T cells. **J. Biol. Chem.** 272:15426-15433, 1997.

30. M.T. Esser, D.M. Haverstick, C.L. Fuller, C.A. Gullo, and V.L. Braciale: Ca^{2+} signaling modulates cytolytic T lymphocyte effector functions. **J. Exp. Med.** 187:1057-1067, 1998.
