Item	Description
Anes: Airway examination (conceptual competence)	Required demonstration of conceptual competence
Anes: Airway examination (skill)	Required Skills: Skills/tasks to be done during the clerkship
Anes: Evaluates patient post-operatively	Required Skills: Skills/tasks to be done during the clerkship
Anes: Evaluates patient pre-operative and formulates an anesthetic plan	Required Skills: Skills/tasks to be done during the clerkship
Anes: Fiberoptic bronchoscopy	Required Procedural Skills: Simulation
Anes: Focused Pre-operative examination	Required Skills: Skills/tasks to be done during the clerkship
Anes: Intravenous access	Required Skills: Skills/tasks to be done during the clerkship
Anes: Intubation (simulation)	Required Procedural Skills: Simulation
Anes: Intubation (skill)	Required Skills: Skills/tasks to be done during the clerkship
Anes: Laryngeal mask airway	Required Skills: Skills/tasks to be done during the clerkship
Anes: Laryngeal Mask Airway insertion	Required Procedural Skills: Simulation
Anes: Mask ventillation (simulation)	Required Procedural Skills: Simulation
Anes: Mask ventillation (skill)	Required Skills: Skills/tasks to be done during the clerkship
Anes: Multimodal pain management of surgical patient	Required demonstration of conceptual competence
Anes: Pharmacology and physiologic effects of inhalational anesthetics	Required demonstration of conceptual competence
Anes: Pharmacology and physiologic effects of intravenous anesthetics	Required demonstration of conceptual competence
Anes: Pharmacology of neuromuscular blockage	Required demonstration of conceptual competence
Anes: US-guided central line placement	Required Procedural Skills: Simulation

EM Discharge instructions	EM Patient Disposition
EM Week Constructive Feedback By Faculty	
EM: Abscess I&D	EM Procedures
EM: Addressing social issues	EM Patient Disposition
EM: Aorta US	EM Ultrasound
EM: Arterial Access (ABG)	EM Procedures
EM: Bedside glucose	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Bedside Peak Flow	EM Cardiac and Respiratory
EM: BP measurement (Auto)	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: BP Measurement (Manual)	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Cardiac monitoring	EM Cardiac and Respiratory
EM: Cervical collar immobilization	EMS Ridealong
EM: Chest XR	EM Xrays
EM: DVT US	EM Ultrasound
EM: Extremity XRay	EM Xrays
EM: Femoral Stick	EM Procedures
EM: GCS Calculation	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Head CT Scan	EM Xrays
EM: Interpret an ECG (rate, rhythm, intervals, ST segments, T waves)	EM Cardiac and Respiratory
EM: IUP- Fetus US/FHT	EM Ultrasound
EM: IV Cannulation	EM Procedures
EM: IVF Resuscitation	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Joint immobilization	EM Procedures
EM: Laceration Repair	EM Procedures

EM: Med reconciliation	EM Patient Disposition
EM: Nasogastric Tube Insertion	EM Procedures
Em: Nebulizer treatment	EM Cardiac and Respiratory
EM: Nebulizer treatment (peds)	EM Pediatric Skills
EM: Obtain an ECG	EM Cardiac and Respiratory
EM: Orthostatic BP Meas	EM Cardiac and Respiratory
EM: Outpt Pain management	EM Patient Disposition
EM: Parent/Family Interaction	EM Pediatric Skills
EM: Patient Home Visit	EMS Ridealong
EM: Patient Transfer	EMS Ridealong
EM: Pediatric ECG interpretation	EM Pediatric Skills
EM: Pediatric I/O or foley	EM Pediatric Skills
EM: Pediatric IV/blood draw	EM Pediatric Skills
EM: Pediatric medication dosing	EM Pediatric Skills
EM: Pediatric vital signs (infant)	EM Pediatric Skills
EM: Pediatric Weight Meas	EM Pediatric Skills
EM: Procedure Log	
EM: Pulse Oximetry	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Rectal Exam	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: RUQ US	EM Ultrasound
EM: Spine XR	EM Xrays
EM: Spine-board immobilization	EMS Ridealong
EM: Stool Guaiac	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Supply O2 (NC)	EM Cardiac and Respiratory
EM: Supply O2 (NRB Mask)	EM Cardiac and Respiratory
EM: Suture/Staple removal	EM Procedures
EM: Temperature Meas (Oral)	EM Initial Patient Assessment (may do these

	on CARS or in ED)
EM: Temperature Meas (Rectal)	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Trauma US	EM Ultrasound
EM: Universal Precautions	EMS Ridealong
EM: Urethral cannulation	EM Procedures
EM: Urinalysis	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Urine Pregnancy	EM Initial Patient Assessment (may do these on CARS or in ED)
EM: Wound Exploration	EM Procedures
EM: Wound Irrigation	EM Procedures
EM: Wound Irrigation	EM Procedures
EM: Wound Irrigation	EM Procedures
EM: Wound Irrigation	EM Procedures
