2004 – "The Bishops were very welcoming and it was a great housing experience. The drive to work was not bad."

"The only real drawback is the lack of phone access, the hosts have a phone, but i felt like it was imposing to ask to use there personal line unless it was an emergency"

2003 - "The Bishops are kind folks. They were very hospitable. I was very pleased with my housing experience."

"Host very kind and hospitable – house staff great"

"Not many restaurants in area"

One "Poor" rating for Telephone access "The housing site was very nice, but it was about a 20 minute drive one way over a mountain to the office. Also, there was only a single phone line for the Inn's business use, personal use, and guests' use so using the internet was nearly impossible."
