- Psychiatry
- Surgery

Fellowships

- Addiction Psychiatry
- Cardiology
- Geriatrics
- Palliative Care
- Pulmonary/Critical Care

Psych Clerkship Updates

- Feedback from attendings regarding students is excellent-privilege to work with UVA students
- 2 new teaching attendings on the unit with no planned turnover
- Focus more on involving students in presenting on daily rounds and also in more formal presentations of H&Ps
- Now have casebook for DSMIV TR and are creating teaching cases from it to parallel the students' clinical experiences
- ED experience

IM Clerkship Updates

- Feedback from attendings regarding students is excellent-students always courteous, documentation submitted on time, answer pages promptly, check out at end of rotation
- Housestaff attend "Train the Trainer" teaching courses
- Piloted UVA lectures with students here at Salem via videoconferencing use bridge and it worked
- Students have the opportunity to sit in on SCAN lectures on Thursday at 12pm and Medical Grand Rounds at 7:45am on Fridays

Simulation

- Implementation is in progress
- Regular menu
- CAE 426 Endoscopy AccuTouch Base System
- Task Trainers
- Decision SIM

Surgery Clerkship Updates

- Feedback from attendings regarding students is excellent
- Medical student autonomy and responsibility-integral part of the surgical "team"
- Challenged students to function at a higher level in the care of their patients
- Strong teaching by residents and attendings
- Didactics sessions are planned-difficult to have students present during sessions as they are likely in OR, clinical, or providing care of the floor
- Anticipated increased OR time this calendar year as OR has increased staffing to accommodate demand

Simulation 3G Man

CAE 426 Endoscopy AccuTouch Base System

OORAM Simulation Training

Bldg. 75 Learning Center

Education Classroom Bldg. 77

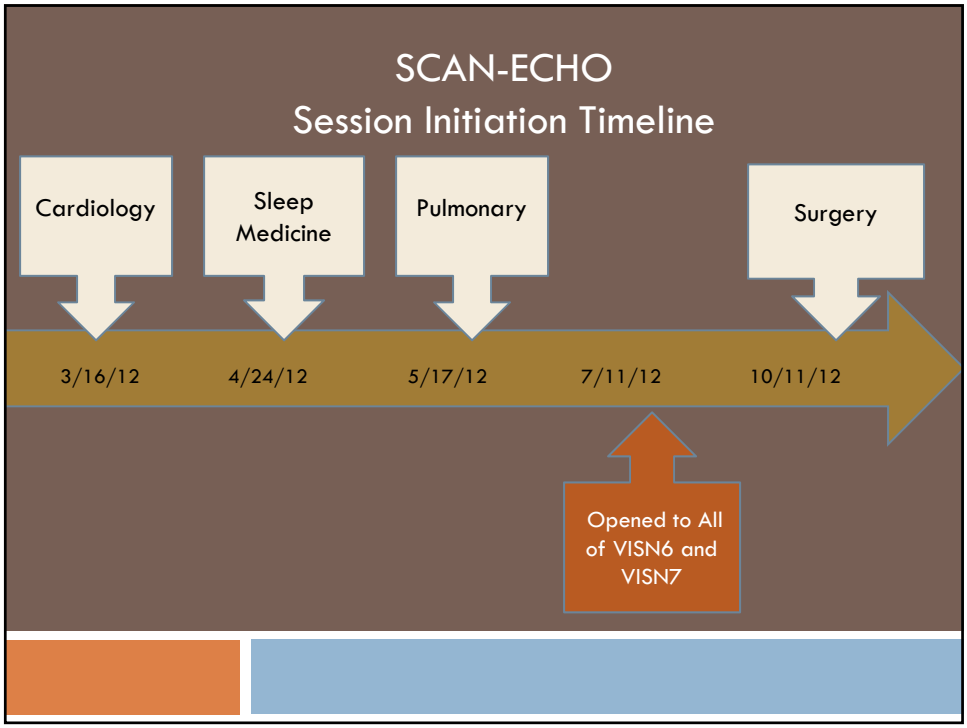
Renovations for Medical Students

- Starting with Bldg. 77 2nd floor-Main Lounge Area
- Potential project with Bldg. 17 to renovate for students with all new furniture
- Project submitted for replacement of A/C system in Bldg. 77 (possibly 2014)
- Hot water distribution is original to Bldg. 77 and will require replacement of piping

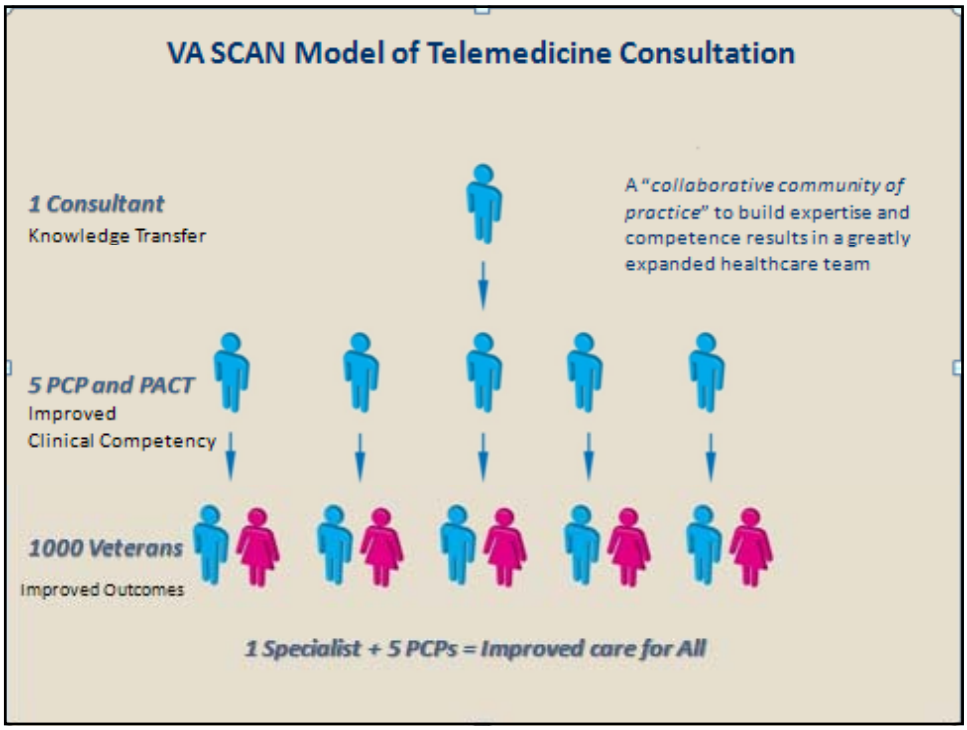
Specialty Care Access Network (SCAN-ECHO)

Goals for 2013:

- Using force multiplier concept will build primary care intensivists in rural areas
- Continue to expand the number of Primary Care Providers that attend Salem SCAN-ECHO sessions
- Continue to increase the number of Salem SCAN-ECHO consults from Primary Care Providers
- Encourage relationships between Specialty Care and Primary Care



SCAN-ECHO
Session Initiation Timeline
Cardiology
Sleep Medicine
Pulmonary
Surgery
3/16/12
4/24/12
5/17/12
7/11/12
10/11/12
Opened to All of VISN6 and VISN7



VA SCAN Model of Telemedicine Consultation
1 Consultant
Knowledge Transfer
A "collaborative community of practice" to build expertise and competence results in a greatly expanded healthcare team
5 PCP and PACT
Improved Clinical Competency
1000 Veterans
Improved Outcomes
1 Specialist + 5 PCPs = Improved care for All
