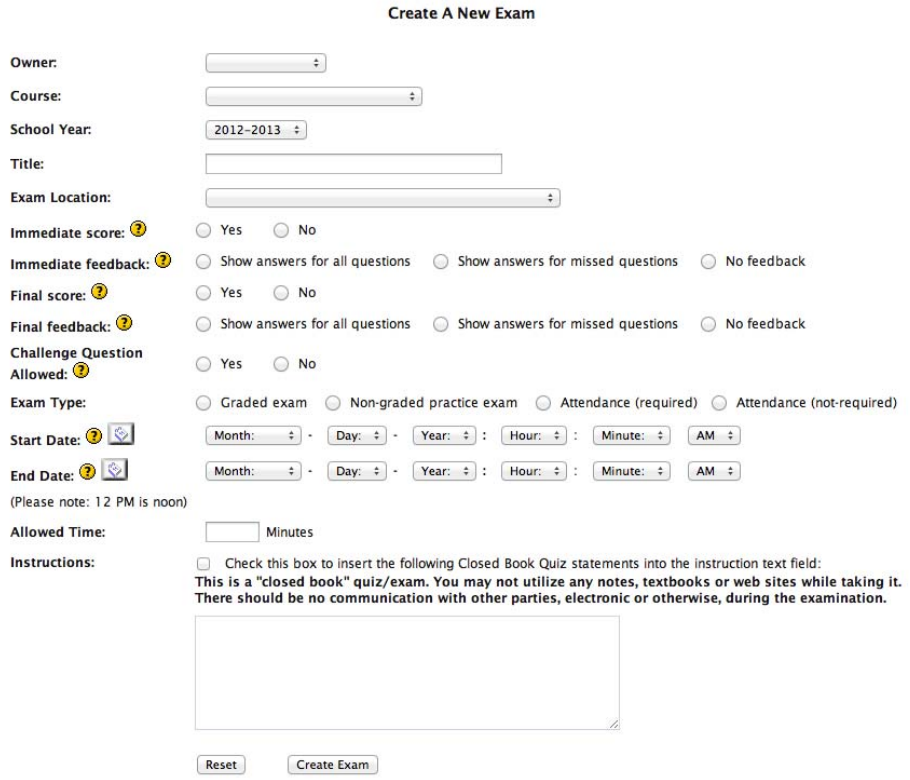
Assessment Metadata

Feedback can be configured independently for each assessment, and independent of the challenge feature. There are 3 options: no feedback, feedback only on missed questions, and feedback for all questions. The feedback can be displayed immediately, as soon as the student completes the exam, or at the end of the exam period. If the immediate feedback option is chosen, feedback is available for 1 week after the exam period. If final feedback is chosen, the feedback is available indefinitely.

Formative Assessment Policy
Exam Location: Anywhere
Immediate Score: NO
Immediate Feedback: Show answers to all questions
Final Score: NO
Final Feedback: Show answers to all questions. TURN FINAL FEEDBACK OFF AT THE END OF THE SYSTEM.
Challenges allowed: No
Allowed time: 2 minutes per question – 20 questions per week of content being assessed.

Summative Assessment Policy
Exam Location: HS Library and MEB
Immediate Score: NO
Immediate Feedback: Show answers to MISSED questions
Final Score: NO
Final Feedback:
If the system has only ONE summative: Set to "NO". The immediate feedback will allow them access to the assessment for one week.
If the system has more than one summative: Set to "Show answers to MISSED questions". YOU WILL NEED TO MANUALLY TURN FINAL FEEDBACK OFF AT THE END OF THE SYSTEM. Failure to do this will allow access to the assessment through the end of the academic year.
Challenges allowed: Yes
Allowed time: 2 minutes per question – 30 questions per week of content being assessed.


Important consideration: If an exam is reopened, for example for a student who did not take the exam initially, this will extend the period in which immediate feedback is viewable, since the close date of the exam has been extended (reset to one week after the closing of the exam.
